# BRAINSTORMING WORKSHOP

## Next Generation

# Namespace Infrastructure

In the context of the study of the evolution of the future internet and networks, this informal expert workshop, organized by Dr. Francis Muguet will discuss topics related to the exploration of technical possibilities in order to

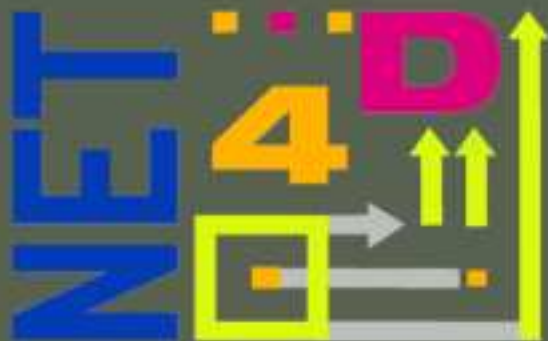

- a) support next generation technologies and services
- b) encourage accelerated evolution of existing DNS namespace services infrastructure.

Workshop open and free, registration required

More information : <http://www.net4d.org>

Organizer : Dr. Muguet [francis.muguet@ties.itu.int](mailto:francis.muguet@ties.itu.int)

The workshop will be held at ITU Headquarters  
Room G1 11H-13H 15H-16H30
