Implementing Action Line C7ªe-Science °

Working Methods of the Multi-stakeholders Team

The following thematic clustering of Action lines C7 e-science in several specific topics along with several cross-cutting themes. Government representatives have underling during the previous series of meetings held in Paris (C3 access to knowledge, C10 ethics, C7 e-learning, C9 media) that themes must be closely related to WSIS texts since they reflected carefully negotiated balance.

Academic network access (related to C2 & C4)
Open Access (related to C3)
Preservation (C9 media)
specifics topics
P2P and scientific knowledge sharing
Metadata standards, search engines, object identifiers.
        (Interoperability of databases)

Cross-cutting themes (as discussed in other action lines)
Research
Ethics (related to C10 ethics)
Digital Divide (Digital solidarity agenda)
Financial mechanisms (Digital solidarity agenda)
Multi stakeholder partnerships (also in C7 e-learning)
Linguistic diversity (related to C8)
