, eneral consensus on recommendations

International Conference
"UNESCO between two Phases of
the World Summit on the Information Society"
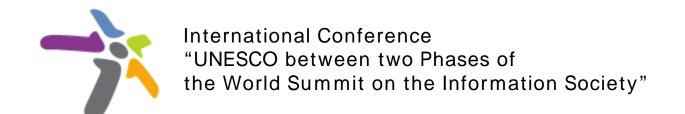

GKP regional meeting

: iscussed ways of see0ing out inno2ati2e solutions and mobilising resources to . romote sustainable de2elo. ment and building successful 0nowledge societies in the Eastern and Central Euro. e through the in2ol2ement of organisations of different ty. e and si; e from different countries and sectors which wor0ing together would a. . ly what is learned locally and globally

International Conference
"UNESCO between two Phases of
the World Summit on the Information Society"

Session 1

Considered theoretical and . olicy issues of the emerging . henomenon of the human culture # %ulti#Sta0eholder Partnershi. s which are basically defined as alliances between . arties drawn from go2ernment business ci2il society and international organisations that strategically aggregate the resources and com. etencies of each to resol2e the 0ey de2elo. ment challenges

International Conference
"UNESCO between two Phases of
the World Summit on the Information Society"
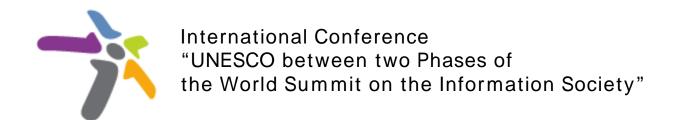

Session 2

Presented case studies selected to 2iew a range of . artnershi. s ty. es through the lens of the . artnershi. . rinci. les and to show the way in which these . rinci. les a. . ly in . ractice

International Conference
"UNESCO between two Phases of
the World Summit on the Information Society"

Session 3

: rafting *ecommendations for UNESCO Position at the World Summit on Information Society in res. ect to %ulti#Sta0eholder Partnershi. s which are necessary because it is increasingly clear that no one sector in society can deli2er the com. le<ities of sustainable de2elo. ment alone

International Conference
